SUBJECT: Combined Program Hearing and 4th Quarter Review & Forecast

1. The FY 1975 Program draft for your office is due to be submitted not later than 15 March 1973. As in the past, a hearing will be held by Mr. Duckett to discuss your proposals and approve or adjust your requests.

2. Since the timing for these hearings coincides with the period when the 4th Quarter Review and Forecast would normally occur, we are attempting to save time for all concerned by combining the meetings into a single session. We plan to discuss the program first then proceed to the QR&F.

4. All meetings are scheduled to convene in the DD/S&T Conference Room [redacted] in that the Program hearing can be expected to be lengthy, the time remaining for the QR&F may be minimal. Since the forecast will be of the fourth quarter, we are assuming your contract proposals will be few and we trust the time available will be sufficient. If you intend to employ viewgraph transparencies in your briefing, we request xeroxed copies of the information for inclusion with the Memorandum for the Record.

25X1 5. CIS input, where applicable, is due into the Management Support Branch/Comptroller no later than COB 21 March 1973. Any questions on this input should be directed to [redacted] on phone extension [redacted]
